EMAIL AND TEXTING CONSENT

HIPAA regulations and my professional Code of Ethics both require that I keep your Protected Health Information private and secure. Email is not 100% secure. Some of the potential risks that may be encountered in emailing include:

- Mis-delivery of email to an incorrectly typed address.
- Email accounts can be “hacked,” giving a third party access to email content and addresses.
- Email providers (i.e., Gmail, Comcast, Yahoo) keep a copy of each email on their servers, where it might be accessible to employees, etc.

For these reasons, I will not use email to discuss clinical issues. If you choose to email me, please take these risks into consideration. With regard to ALL CANCELLATIONS/No Shows and/or RESCHEDULING of set appointments must be done by telephone, twenty-four (24) hours in advance or patient will be charged the regular session fee. Patient will also be held responsible for the fee if patient does not appear for an appointment.

I do not text.

I give consent to email. Email Address: _____
